The Leader in All Tissue and Soft Tissue Lasers

Biolase is the provider of the world’s most used All Tissue lasers.

The Waterlase All Tissue Laser line offers optimum power for faster cavity preparation with the greatest range of both soft and hard tissue applications.

Dozens of procedural pre-sets combined with an easy to use interface simplify the operation of this versatile clinical tool.

Backed up Australia Wide

MEDIQUIP

Award Winning Service

SEE PAGES 2-3

ACCUTRON’s Flowmeter systems include the State-of-the-Art Digital Ultra PC unit that brings the flow tube technology systems into modern standards of infection control combined with total failsafe standards.

AUSTRALIAN STANDARDS COMPLIANT

SEE PAGES 4-5

The X Tool Instruments from Zepf

The ideal instrument to preserve hard and soft tissue structures during the extraction phase and to follow the principles of minimal invasiveness.

SEE PAGE 11
The Waterlase range of minimally invasive dental laser system features expanded and enhanced capabilities such as the SureFire delivery system and REPAIR protocols on board to help you give your patients the best possible experience and give your practice an opportunity for practice growth.

Backed up with World Class Training through Biolase’s Certified and Advanced Training Courses to assist in the development of your clinical skills with in-depth training for optimised treatment techniques with Waterlase.

More Clinical Applications than any other Dental Laser!

Waterlase has more clearances and indications than any other dental laser, giving the scope as your clinical skills grow, the number of procedures you can perform will grow with you.

- 56 pre set procedures allowing ‘select and go’ treatment
- Expand your practice capabilities with the NEW REPAIR Perio and REPAIR Implant Apps to assist in the Management of Periodontitis and peri-implantitis
- Take full control of all procedures with fully adjustable settings as needed.

Restorative Class I, II, III, IV & V
Soft Tissue Gingival Recontouring, Frenectomy, Biopsy
Root Canal Therapy, Pulpotomy Apicectomy
REPAIR Perio Protocol

Pocket Therapy Open or Closed
Flap. Osseous Crown Lengthening Open / Closed
Implant Recovery
Troughing, Laser Bandaging
REPAIR Implant Protocol
Epic X Soft Tissue Lasers

Surgery, Pain Relief and Whitening in one unit

Epic X features three distinct treatment modes, greatly expanding the utility of your Epic X laser. You have access to Surgery, Pain Relief and Whitening procedures from a single device, ensuring quick payback and long-term ROI.

Create White Smiles Faster

In-office teeth whitening remains in high demand and can be a steady, reliable source of revenue for practices. With affordable per-patient costs and dramatic results in as little as 20 minutes of chair time, your practice can begin benefiting from laser whitening today.

Start and Finish Laser Surgeries Faster

Epic X marks the debut of BIOLASE’s patented pre-initiated tip allowing the dentist to get to work faster without having to manually initiate or re-initiate tips.

iLase

the Powerful, Affordable, Pocket Portable

iLase provides the power and control of a diode laser – in the palm of your hand. Avoid getting tangled in cords and wires with single, self-contained handpiece.

Increase your productivity with a truly personal, unrestricted laser experience that is ergonomic and balanced, reducing overall hand fatigue for clinicians.

Epic X is cleared for temporary relief of minor pain, including pain associated with TMJ or other temporomandibular disorders.

With patented handpiece attachments to simplify the procedure, it’s simpler to provide pain relief faster.

$10,600+GST = $11,660

$5,700+GST = $6,270
Accutron’s Digital Ultra Flowmeter make patient administration simplified, with an efficient system that displays all critical parameters clearly both numerically and as electronic flow tubes. The ease of color-coded touch controls with LED display is an invaluable feature of the Digital Ultra flowmeter.

The Automatic Calibration adjusts total flow while gas % remains constant, for efficient gas administration.

Digital Ultra utilises modern mass-flow control that is extremely reliable and 10 times more accurate than flow tube based systems.

Importantly, the Digital Ultra unit complies with the Australian Standards, Policies & Guidelines relevant to Nitrous Oxide equipment for Dentistry:
- Australian Standard AS2896
- Australian Standard AS3840
- ADA Policy 6.17 for Conscious Sedation
- ANZCA Guidelines Conscious Section PS09 2014

Not all units comply!

Complete Digital Ultra Mobile System
w/ Clearview Scavenging Hood Circuit*
- Digital Ultra flowmeter
- Clearview Scavenging Circuit*
- Clearview Adult Disposable Hoods
- Clearview Peds Disposable Hoods
- Mobile 3 Cylinder Stand
- Medical Oxygen hose set
- Medical Nitrous Oxide set
- Medical Oxygen Regulator
- Medical N2O Regulator
Overall Height 1090mm
$ 7,200+GST = $ 7,920
Just add Gas Cylinders!

Ultra PC% Analogue
Accutron’s Ultra PC % Flowmeter is designed for the practitioner who prefers an analogue flowmeter.

Ultra PC% combines efficient operation with optimal safety, and its smooth appearance complements both infection control disinfection with modern operatory aesthetics.

Complete Analogue Mobile System
$ 6,200+GST= $ 6,820

BOC

### Scavenging Hoods and Tubing Sets

#### Axess Low Profile Nasal Hoods

The Axess low profile design provides unencumbered mouth access whilst its small lightweight scavenging tubing is easy to work around, enabling clinicians to deliver excellent efficient care to more patients.

**Axess Low Profile Nasal Hoods**

- Single use Hoods
  - Small Size (Pedo) $180+GST = $198
    - Unscented Ref. AC.53037-9
    - Bubblegum Scent Ref. AC.53037-12
    - Mint Scent Ref. AC.53037-16
  - Medium Size (Adult) $180+GST = $198
    - Unscented Ref. AC.53035-9
    - Bubblegum Scent Ref. AC.53035-12
    - Mint Scent Ref. AC.53035-16
  - Large Size (Adult) $180+GST = $198
    - Unscented Ref. AC.53034-9
    - Bubblegum Scent Ref. AC.53034-12
    - Mint Scent Ref. AC.53034-16

**Axess Scavenging Tubing Set**

Lightweight and Autoclavable, allows you to fit the Axess Hoods to any system type!

- For tubing with Scavenging Control valve use with non-Accutron existing systems $380+GST = $418
- For tubing less Scavenging Control valve use with existing Accutron systems $320+GST = $352

**Save 30% on Axess Tubing Set with your 1st Axess Hood Order!**

#### Clearview Nasal Hoods

Accutron’s Clearview Scavenging Hood System incorporate a double hood with a transparent outer hood, allowing the doctor to monitor the patient’s breathing for increased safety. Clearview combined with NO2 reduces patient anxiety for treatment.

**Clearview Nasal Hoods**

- Adult Size $99+GST = $108.90
  - Unscented Ref. AC.33035-9
  - Orange Scent Ref. AC.33035-10
  - Vanilla Scent Ref. AC.33035-14
  - Mint Scent Ref. AC.33035-16
- Pico Size $99+GST = $108.90
  - Orange Scent Ref. AC.33037-10
  - Strawberry Scent Ref. AC.33037-16
  - Bubblegum Scent Ref. AC.33037-12
  - Grape Scent Ref. AC.33037-17

**Autoclavable Hood**

- Large Size $190+GST = $209
  - Ref. AC.33018
- Medium Size $180+GST = $198
  - Ref. AC.33019
- Small Size $170+GST = $187
  - Ref. AC.33020

**Axess Scavenging Tubing Sets**

Upgrade your existing Nitrous Oxide System to the newest & most effective Scavenging Set.

- Choice of Clearview Single Use Hoods or PIP+ autoclavable hood.
- Reservoir Bag, and vacuum control valve incl.

**Breathing Bags**

- Latex Free
- Fits All Brands

**Save 30% on Axess Tubing Set with your 1st Axess Hood Order!**

Able to be used as Cheek , tongue retractor, or muco-periosteal flap retractor.
Its innovative heart shape allows ergonomic adaption for all four quadrants.
Due to the reflective surface, the retractor allows for optimal illumination of the surgical area.

The revolutionary Zepf Retractor and Mouth Mirror provides an ease of Retraction Viewing never before possible.

Contrast PA Probe Inserts

Zepf Contrast PA Probes are made of plastic material and consist of a flexible working tip which adapts optimally to the anatomy of the pocket depth when measuring.

They are suitable to determine the periodontal status, especially for use on implants. Scratching of the implant surface is avoided with these probes.

Autoclavable; the tips are reusable until they bend or the graduation is faded.

ZEPF Universal Finishing Clamps

Saves you and the patient

Better access means optimal results and less patient discomfort. Perfect for:
- Completion of approximal composite fillings
- Correction of filling overhangs in the approximal area.
- Removal of Matrix strips after filling inlays.
- Clamping floss for interdental plaque removal
- Clamping strips for removal residue cement after crown/bridges.

Benex®

The Ultimate in Atraumatic Extraction

1. Anaesthesia, cutting periodontal fibres in sulcus by using Periotome.
2. Loosening of the strong roots by axial movements through use of slim Root Elevator or X-Tool instrument.
3. Insertion of the Diamond Coated twist drill in the axis centre of the Root Fragment.
4. According to circumstances, the short or long extraction screw with screw support is inserted.
5. The extractor is positioned on the adjacent crowns. An impression quadrant support is included for large gap areas.
6. Once the extractor is positioned properly, the extraction is carried out by turning the hand screw.

In modern dentistry, implantology following extraction is favoured. Benex II provides gentle and simple extraction of roots over the whole mouth. Damage to soft tissue and the surrounding bone is minimised.

Due to the longitudinal extraction method, Benex II provides the optimal base for direct implantation. Studies made after the use of BenexII prove that the reossification of the extraction alveolar wall advances optimally. This is a great advantage for retarded implantation.

Conventional Extraction Pressure on the alveolar wall by forceps or root elevator

Benex II Extraction Purely axial traction.

The Complete Benex II System
Extractor, Pullrope, Driver Guides, Quadrant Support, Drills and Set Screws etc within a organised and sterilisable Stainless Steel Cassette and Washtray. Order ref ZE.12.303.00 $2,700+GST = $2,970

Watch the Video and get full details at: www.zepfdental.com.au/benex-ii/

ZEPF Crown Spreading Pliers
Perfectly designed for spreading of crowns without pressure on the root and neighbouring tooth.
Ref ZE 19.277.01Z $290+GST = $319

ZEPF Peet Splinter Forceps
Diamond Coated for Maximum Grip
Acutely curved to provide maximum accessibility for all areas including the molar region.
Ref ZE 22.523.90D $180+GST = $198

DIAMOND COATED

Developed to provide the ultimate in gentle extraction.

Quality never goes out of Style

The result of 130 years of experience, continuous product development and continuous improvements in details. Ritter’s Contact World System combines leading edge design with a high level of functional though comprehensive control systems that are intuitive to operate.

Ritter Contact World’s quality construction both internally and externally ensures years of reliable service.
The Ambidextrous Dental System
Ritter Ultimate Comfort System can be switched from right hand use to left hand use in a matter of seconds.

Combined with a high level of control, the integral multifunctional foot pedal control system is easy to use and supports excellent workflow.

All Ritter systems include an LED ultrasonic scaler standard and allow a large degree of customisation to suit your specific needs.

Choice of Hanging Tubing or Continental Delivery

Starting from:
$29,800 + GST = $32,780

Ultimate Smart
The leader in Price vs Performance

- Fibre Optic Handpieces lines
- LED ultrasonic scaler
- LED operating light
- Foot Control provides variable speed for all instruments
- Swivel Cuspidor & Assistant unit

Optional. Integrated LED electric low speed motor

Starting from:
$25,400 + GST = $27,940
**Dental Loupes**

**N31 Design**

The easiest to use loupes available!

The N31 Range provide a super-long Working Distance of 300mm to 580mm in one loupe, providing the most flexible loupes for general dentistry that are also easy to use.

Supplied with Titanium Sports Frames Loupes.
